Waynesboro Nurseries

INC.

WAYNESBORO, VA.

Branch Nursery: Boxwood Gardens, Afton, Virginia

SPRING 1939 AND FALL 1939

DEPENDABLE PLANT MATERIAL AND SERVICE have held old customers and made new ones, building within a few years time Virginia's Largest Nursery, serving planters in many States. We solicit, on our past record, the continued patronage of our old customers and a trial order from those whom we have not yet served. Our stock and services are being improved from year to year. Our assortment of varieties was never as complete and the quality never better than we are prepared to offer this season. Furthermore, our prices were never before quite so low.

OUR STOCK AND PRICES. Being governed strictly by price in buying Nursery Stock is false economy. The best is the cheapest, even though the initial cost is more. Our prices are based on furnishing vigorous, healthy trees true to name, grown and sold on a small margin of profit and delivered in first class condition. For the benefit of those who are willing to use small sizes of trees and plants and wait for them to grow, we offer the Mail Order Sizes in Shrubs and small sizes of Fruit Trees for less than standard sizes. Our small plants are healthy, true to name, and will give satisfactory results. We, however, believe in most cases it is economy to purchase medium or larger sizes.

WE PAY TRANSPORTATION CHARGES or allow 5% discount f.o.b. Waynesboro. For exceptions see note under Strawberries, Evergreens, and Shade Trees, or letter quoting special f.o.b. Nursery prices.

CERTIFICATE OF INSPECTION, issued by Virginia State Entomologist, furnished with each shipment.

TERMS. When remittance in full accompanies order, we allow a liberal premium in free stock. Orders for C.O.D. shipments are accepted and booked when a deposit of as much as 25% accompanies order.

LIBERAL REPLACEMENT TERMS. While losses from transplanting our vigorous, carefully handled stock are at a minimum, there are always some losses to be expected, regardless of how careful both Nurseryman and planter may be. We agree to share with our customers any losses from transplanting our stock by refunding at half catalogue list price any plant material reported dead within twelve months after date of delivery, provided the original purchase was paid for as per sale terms and the plant material has been given reasonable attention. See exceptions under Strawberries, Evergreens, and Shade Trees.

VARIETIES AND QUANTITIES. In case you do not find listed the variety, quantity, or size desired, write for further information.

MAKING UP ORDERS. Do not fail to give sizes, quantities, and varieties wanted. Also give shipping point if different from post office, and approximately when you would like your stock shipped. We furnish 6 at dozen rate, 30 at 100 rate, and 300 at 1,000 rate, with the exception of Berry Plants, Bulbs and Perennials, which are sold not less than 50 at 100 rate, and 500 at 1000 rate, with exceptions noted.

NOTICE OF WARRANTY. While we are very careful to keep our varieties true to name, in the event they should prove otherwise, we cannot be responsible for more than the amount we receive for the stock.

FRUIT TREES

Planters in various communities demand different sizes and varieties, so we offer a large list of both. All of our stock is clean, healthy, true to name, and bears a State Certificate of Inspection. Our list of varieties is carefully worked out. Whether you are planting a commercial orchard or a small home orchard you can make a suitable selection from our list.

APPLES

The following varieties for home orchards will furnish Apples from the earliest to the latest: Summer Yellow Delicious, Smokehouse, Summer Rambo, Delicious, Lowry, Winesap and Yorking.

VARIETIES

Albemarle Pippin. Yellowish Green. Winter.
 Ben Davis. Well-known red Winter Apple. Poor quality but popular for export market.
 Bonum. Red Fall Apple, medium size. Excellent quality for export.
 Delicious. Red and green striped. One of the best known Winter varieties. Excellent quality.
 Duchess. Striped commercial and home orchard variety. July.
 Early Harvest. Well-known early greenish yellow Apple. Good in its season.
 Fall Cheese. Old favorite. Red striped home orchard variety.
 Fall Pippin. Yellow. An old-time Fall Apple having a place in every home orchard.
 Grimes Golden. The most popular late Fall and early Winter yellow Apple.
 Grimes Golden, Double Worked. Lives longer than the standard trees. 10c extra per tree.
 Hyslop Crab. Excellent for jellies.
 Jonathan. A late Fall, red export Apple. Much in demand for exporting.
 King David. Another medium sized red late Fall Apple.
 Liveland Raspberry. 1 yr. only. Medium sized. Striped. Midsummer. Excellent quality.
 Macoun. Dark red, good size, rich flavor. Introduced by New York Experiment Station. Regular bearer.
 Maiden Blush. Favorite Midsummer home and commercial variety. Golden background, red cheek.
 Mammoth Black Twig. Large, dark red. Long keeper. Good quality. Rather shy bearer.
 McIntosh. A red Winter variety in New England States, late Fall in Virginia.
 Milton. Belongs to McIntosh family but ripens a month earlier.
 Mother. Late bloomer. Medium sized, red export variety.
 N. W. Greening. Yellowish green. Winter.
 Paragon. Resembles Black Twig, but is more abundant bearer.
 Rome Beauty. A well-known striped Winter Apple. Very near sweet.
 Smokehouse. Aug-Sept. Striped. Favorite home orchard variety.
 Stayman. One of our most popular commercial varieties of the Winter varieties. Large, red, green striped.

Our Trees Double Inspected

PRONOUNCED FREE OF DISEASE by Virginia State Entomologist.

PRONOUNCED TRUE TO NAME by Professor Shaw, A National Authority on Identification of Varieties.

Professor Shaw, Mass. State College, reports:

"TO WHOM IT MAY CONCERN:

This is to state that we have examined for trueness to name all the saleable two year Apple Stock of Waynesboro Nurseries, Inc., near Waynesboro, Virginia and as they now stand in the nursery row all varieties are, to the best of our knowledge and belief, true to name."

 Professor of Pomology Research Professor of Pomology

Summer Rambo. Undoubtedly one of the best Summer varieties of its season. Large striped, excellent quality. Ripens in August.

Sweet Paradise. Most popular Fall sweet Apple. Transcendent Crab. 1 yr. only. Red cheek. Used for jellies.

Virginia Beauty. 1 yr. only. Resembles Delicious in quality and shape; darker and extra fine quality.

Wealthy. Late fall. Medium sized red.

Winesap. Standard commercial variety. Medium size. Solid red.

Yellow Transparent. The earliest Apple on our list. A very popular early Apple. Medium size and excellent for cooking purposes.

York Imperial. Most extensively planted Apple in Virginia but is now being displaced by Yorking, the Solid Red York.

YORKING

On May 28, 1935, was awarded United States Patent No. 125.

A New Solid Red York having all the good qualities of the famous old York and the tremendous advantage of being a Solid Red, a pleasing purplish red, and coloring two weeks earlier than the standard York.

Yorking is one of only a few Apples ever to be honored with a United States Patent. You can imagine what a Solid Red York—every Apple on the tree being a solid, bright red—would mean to the grower. That is exactly what we offer in the Yorking.

Place your order early for Yorking as enough Yorking trees have never been available to supply the demand.

NEW SOLID RED DELICIOUS

A "Super" Delicious. An Apple with all the good qualities of the Common Delicious: Same size, same shape, same flavor, same texture and same ripening period, but the New Solid Red Delicious colors two to three weeks earlier and colors solid red without trace or sign of stripe, even into the stem and blossom ends.

LOWRY

Beautiful dark red Winter Apple, enjoying the reputation of selling for the highest price of any Apple grown in Virginia. It sells for \$1.00 to \$2.00 more per barrel than standard varieties. Always in demand both as a home variety and a commercial Apple. The Lowry should be in every orchard whether home or commercial.

NEW RED ROME

Same as Rome Beauty with the exception of being a solid red.

NEW SOLID RED STAYMAN

Sport of the well-known Stayman, having all the good qualities of the Common Stayman and the big advantage of being solid red in color instead of pale striped greenish coloring found in the Common Stayman. Write for further information.

NEW SOLID RED JONATHAN

Same size, quality and shape as Common Jonathan and differs only by coloring two weeks earlier and coloring solid red.

Lady. 1 yr. only. Small, golden background, red blush; highly flavored; excellent quality. Demands unusually high prices, having sold for as much as \$20.00 per barrel on U. S. markets and is equally as popular on export markets. Trees very scarce.

New Red Duchess. Differs from the Standard Duchess by having more color and coloring earlier in the season.

New Red Spy. A new Northern Spy with a hundred per cent more color.

Summer Yellow Delicious. A Golden Delicious which ripens in July. Most promising new Summer Apple known.

Turley. Somewhat resembles Stayman but has better color and is larger. Does not crack. Yellow flesh. More regular bearer than the Stayman.

Yellow Delicious. Resembles Grimes Golden but larger, more prolific, and earlier bearer.

Hale Haven Peach

CHERRIES

Plant Cherries commercially for profit. They are easily grown and prices for the fruit are always high. They produce large crops comparatively early and are not affected by many diseases or pests. Write for more information about Cherries.

Bing. Good dark red sweet. Best shipper.

Black Tartarian. Well-known commercial sweet.

Early Richmond. Best known sour.

GOVERNOR WOOD. Most popular wax variety.

Lambert. Favorite dark purple sweet.

Large Montmorency. Best large red sour.

Napoleon. New wax variety. Yellow, red cheek.

Windsor. Large, sweet, almost black, fine quality.

PEARS

Pears will continue to be scarce and sell for good prices as few have been planted within the past twenty years. Plant now for both home use and market.

Bartlett. Well known. Most popular Summer Pear. Ripens August.

Clapp's Favorite. A young and early bearer. Very good quality.

Garber. Rapid grower, good quality. Splendid where assortment is demanded. September.

Gorham. Improved Bartlett, ripening two weeks later.

Kieffer. The most extensively planted Pear. Quality not as good as some, but one of our best canners.

Seckel. Small, sweet, excellent quality. Fine for pickling, canning, or eating from the hand.

A GOOD TIME TO PLANT PEACH

Peach have always been a quick money crop and one of the most profitable fruit crops. Peach planting for the past five years has been light and we predict planting made at this time on suitable land affords an opportunity for greater profits than ever.

MUCH DEPENDS ON THE TREES YOU PLANT

Our Peach Trees are budded on the old-time native seedling Peach, giving them the best root system possible and our buds are cut from bearing orchards, assuring our customers of trees true to name. Our sandy loam soil is also conducive to a vigorous, fibrous root system. Our modern tree digger enables us to dig trees with all their roots. Our experience in growing many million trees has taught us how to handle and deliver in such condition that the best of results may be expected.

With the many advantages we have in growing Peach we can quote our trees at very reasonable prices, seldom costing more than trees you could not afford to plant.

For your convenience we are listing our Peach in ripening order. If more complete descriptions are required write us or consult our local representative.

WAYNESBORO NURSERIES, INC.

OPERATING TITUS NURSERY CO. AND BOXWOOD GARDENS

WAYNESBORO VIRGINIA

Spring, 1939.

Dear Planter:

Our chief appeal to the planter has always been Nursery Stock of the highest quality, true to name, at fair prices - passing on to our customers reduced propagation costs in the form of lower prices, made possible by mass production and favorable growing seasons.

Our acreage in Nursery Stock during 1938 was the largest we have ever cultivated, the growing season was ideal, and our trees made excellent growth - making possible even stronger grades and lower prices. We are glad the saving is possible. However, we do not recommend your buying our trees or any other trees because of price alone. Let quality and satisfaction be your first consideration.

PLANT IMPROVED VARIETIES when planting Fruit. See the NEW VARIETIES of Apple and note how the cost of the trees has been reduced to within a few cents per tree of the cost of old varieties. Do not overlook the LOWRY, an Apple you will enjoy in the Home Orchard and profit by in the Commercial Orchard.

Note what New Varieties of Peach are now being offered at standard variety prices. Your special attention is called to the Valiant, Vedette, Hale-Haven, and Mikado.

ORNAMENTAL PLANT MATERIAL is now being offered in a larger assortment of varieties and sizes than ever before. Prices have likewise been reduced.

FOR FURTHER INFORMATION on varieties write for a FREE Copy of our 44 Page Planting Guide.

YOU CAN WIN 10% IN FREE STOCK by remitting in full on orders sent in during February. In Fruits the premiums may be selected from two year LOWRY, DELICIOUS, YORKING, YELLOW DELICIOUS and SUMMER YELLOW DELICIOUS APPLES, and any varieties of PEACH.

Premiums in Ornamentals may be selected from the following varieties of Shrubs: Althea, Barberry thunbergii, Bush Honeysuckle, Butterfly Bush, Forsythia, Mock Ornage, Pearl Bush, Pussy Willow, and Spiraea V. H.; also Roses.

Very truly yours,

TRUE TO NAME—While we use every precaution to have all plants, etc., true to name (we believe we come as near doing this as anyone in the business), we will not be responsible for any sum greater than the cost of the stock should any prove otherwise than as represented.

[illegible]

NOTE—Early in the season we usually have in stock everything listed in our catalog, but late in the season we frequently run short of some of the varieties, therefore, when you order late please state whether we shall substitute a similar variety or return your money for any stock we may be out of.

New Wonder Boysenberry. A cross between Blackberry, Raspberry and Loganberry. Berries average 1½ in. in length, producing as much as 6½ tons of fruit per acre. 25c each, \$2.00 per doz., \$3.50 per 25, \$6.50 per 100, \$60.00 per 1,000.

BLUEBERRIES

2 yr., \$2.00 each, 3 for \$5.00, 6 for \$9.00

GOOSEBERRIES

Houghton. Most popular red.

Downing. Large. Improved white.

35c each, \$3.50 per doz., \$20.00 per 100

CURRENTS

Red Cross. Large. Most popular red.

Wilder's. Early red. Medium size.

Japanese Improved Persimmon. 4-5 ft., \$1.50 each.

RHUBARB AND HORSE RADISH

Victoria Rhubarb. Immense, long stalks. Cherry-red color. 25c each, \$2.50 per doz.

Horse Radish. Vigorous grower. Large size roots. 25c each, \$2.50 per doz., \$15.00 per 100.

ASPARAGUS

Pedigreed Washington. There are a lot of different varieties. Some nurserymen list as many as half a dozen, but the Pedigreed Washington has been proven far superior to the old varieties, so why plant the others? We list only the Pedigreed Washington.

1 yr., field grown roots: 75c per doz., \$2.50 per 100, \$12.00 per 1,000.

2 yr., field grown roots: \$1.00 per doz., \$3.50 per 100, \$15.00 per 1,000.

STRAWBERRIES

There is more variation in the price of Strawberry plants than most Nursery Stock. Why is it? There is a reason. Some dig plants from old bearing patches and sell the plants as a by-product. They must necessarily be sold at a low price as the more experienced planters will not use such plants. Hence such growers must find customers who buy where the cheapest plants are to be had, regardless of whether they are old or new. Delivery costs also are to be considered. We pay transportation charges and guarantee safe arrival. We furthermore agree to furnish at half list price plants for replacing any plants which may be lost the first season from causes beyond our control.

Varieties are listed in ripening order, so you may make a selection ripening from the earliest to the latest.

FAIRFAX—A New Sensation. Early, prolific, unusually productive, large and firm. Introduced by U. S. Department of Agriculture.

DORSETT. Another U. S. Department of Agriculture introduction. Early, productive, frost resistant, large, firm. One of the most promising new varieties.

Gem, Famous Everbearing

Klondyke. An old favorite. Early, sweet.

Premier. The most popular commercial variety. Good size, excellent quality.

Blakemore. Recommended by Department of Agriculture as an outstanding new variety. Super-sedes Premier in yield and quality.

Aroma. Well known Midseason variety.

Big Joe. Extra large. Midseason.

\$2.00 per 100, \$3.50 per 250, \$5.00 per 500, \$7.00 per 1,000, \$30.00 per 5,000.

EVERBEARING VARIETIES

Gem. Starts fruiting in May, after being transplanted in April. As large as the Mastodon and much more prolific. The ideal home Berry. Per 50, \$1.75; per 100, \$3.00; per 250, \$6.00; per 500, \$9.00; per 1,000, \$15.00.

Mastodon. Large and most popular Everbearing until the recent introduction of the Gem. Per 100, \$2.50; per 250, \$5.00; per 500, \$8.00; per 1,000, \$12.00.

All Strawberry Plants f. o. b. Nursery, cash with order without replacement guarantee less 25% discount.

NUT TREES

Black Walnuts. Easily grown, profitable for nuts as well as timber. Our nursery grown trees are easily transplanted and will prove profitable. 3-4 ft., \$1.00 each, \$10.00 per doz., \$65.00 per 100; 4-6 ft., \$1.50 each, \$15.00 per doz.; 6-8 ft., \$2.00 each, \$20.00 per doz.

Walnut, Thomas Improved. 3-4 ft., \$2.00 \$20.00 per doz.

Japanese Walnuts. 2-3 ft., \$1.00 each, \$10.00 dozen.

English Walnuts. These nuts promise to become a profitable commercial crop in Virginia and adjoining states. It has been found by actual test that they can be grown as successfully in this section as anywhere in the United States. The trees thrive and the fruit is of as good quality as that produced elsewhere. We offer the Virginia Thin Shell. 2-3 ft., \$1.50 each, \$15.00 per doz.

ORNAMENTAL AND LANDSCAPE DEPARTMENT

From our selection of choice Shrubs, Evergreens, Shade Trees, Roses, Tuberous Plants, and Perennials, a selection can be made suitable for any requirement.

Landscape Service. We employ a professional landscape architect and a number of practical, well trained field men whose services are always available for our customers. If we can be of any service to you, do not hesitate to call on us.

Our standard grade of stock is grown chiefly for the larger landscape developments and is not to be compared to light Mail Order Grades often quoted. Even the smaller stock we list as "Mail Order Grade" is well rooted, branched, and much of it will give immediate effect.

Make use of our Landscape Department. We have established it for your benefit and it is at your command. If too far away for one of our landscape men to see you, send in measurements of your grounds and a photo of the house for suggestions.

The New Soil Conditioner and Plant Food. "Rho-Za-Grow" has taken the guesswork out of Rhododendron growing.

Rhododendrons and their kindred broadleaved evergreens, the Azaleas, Kalmias, Andromedas, etc., are lovely things, but many planters hesitate to plant these aristocratic American shrubs because of their exacting soil requirements.

"Rho-Za-Grow" is a scientifically balanced soil conditioner and plant food. Use it on all plants requiring sour soils. "Rho-Za-Grow" contains exactly the proper balance of acids, neutral plant food, and humus. It sours and lightens the soil, and it has high plant food content.
